Fire Bolt

Uses per Day ❑❑❑❑❑ ❑❑❑

Fire Bolt (Sp): As a standard action, you can unleash a scorching bolt of divine fire from your hand. You can target any single foe within 30 feet as a ranged touch attack with this bolt of fire. If you hit the foe, the fire bolt deals 1d6+2 points of fire damage. You can use this ability 8 times per day. [Paizo Inc. - Core Rulebook, p.44]

Traits

Wisdom in the Flesh (Irori) - Dexterity (Stealth) (Granted) **[Paizo Inc. - Advanced Player's Guide, p.328]**

Growing up in a rough neighborhood or a dangerous environment has honed your senses. You gain a +1 trait bonus on Reflex saves.

Thrune Informant (Knowledge (Local)) **[Paizo Publishing - Hell's Vengeance Player's Guide, p.13]**

The Thrice-Damned House of Thrune rules Cheliax with autocratic power, and its representatives can be found throughout the empire, drawn from all walks of life. Most of these agents do not work directly as government employees, but they still serve House Thrune in whatever ways they can. You are a true patriot of Cheliax, and have long worked for House Thrune as a paid informant. You report what you see to the authorities, and occasionally carry out specific tasks suited to your skill set and abilities when asked. People like you help prevent potential traitors and other "undesirables" from undermining Thrune's authority and keep Chelish society running smoothly. You hope that with continued faithful service, you will eventually be rewarded with greater authority and autonomy as a sworn agent of House Thrune. You gain a +1 trait bonus on Diplomacy checks to gather information, Disguise checks, and Knowledge (local) checks, and one of these skills (your choice) is a class skill for you.

Wisdom in the Flesh (Irori) - Dexterity (Stealth) **[Paizo Inc. - Advanced Player's Guide, p.333]**

Your hours of meditation on inner perfection and the nature of strength and speed allows you to focus your thoughts to achieve things your body might not normally be able to do on its own. Select any Dexterity-based skill. You make checks with that skill using your Wisdom modifier instead of the skill's normal ability score. That skill is always a class skill for you.

Special Attacks

Fire Bolt (Sp) **[CR]**

As a standard action, you can unleash a scorching bolt of divine fire from your hand. You can target any single foe within 30 feet as a ranged touch attack with this bolt of fire. If you hit the foe, the fire bolt deals 1d6+2 points of fire damage. You can use this ability 8 times per day.

Spontaneous Casting **[CR]**

You can channel stored spell energy into summoning spells that you haven't prepares ahead of time. You can "lose" any prepared spell in order to cast any Summon Nature's Ally spell of the same spell level or lower

Special Qualities

Bonus Feat **[CR]**

Humans select one extra feat at 1st level.

Ash Subdomain **[APG]**

Nature Bond (Ex) **[CR]**

At 1st level, a druid forms a bond with nature. This bond can take one of two forms. The first is a close tie to the natural world, granting the druid one of the following cleric domains: Air, Animal, Earth, Fire, Plant, Water, or Weather. When determining the powers and bonus spells granted by this domain, the druid's effective cleric level is equal to her druid level. A druid that selects this option also receives additional domain spell slots, just like a cleric. She must prepare the spell from her domain in this slot and this spell cannot be used to cast a spell spontaneously. The second option is to form a close bond with an animal companion. A druid may begin play with any of the animals listed in the Animal Companions section beginning on page 51. This animal is a loyal companion that accompanies the druid on her adventures. Unlike normal animals of its kind, an animal companion's Hit Dice, abilities, skills, and feats advance as the druid advances in level. If a character receives an animal companion from more than one source, her effective druid levels stack for the purposes of determining the statistics and abilities of the companion. Most animal companions increase in size when their druid reaches 4th or 7th level, depending on the companion. If a druid releases her companion from service, she may gain a new one by performing a ceremony requiring 24 uninterrupted hours of prayer in the environment where the new companion typically lives. This ceremony can also replace an animal companion that has perished.

Nature Sense (Ex) **[CR]**

You gain a +2 bonus on Knowledge (Nature) and Survival skill checks.

Orisons **[CR]**

You can prepare a number of orisons, or 0-level spells. These spells are cast like any other spells, but they are not expended when used and may be used again.

Resistance to Fire (Ex) **[B1]**

You may ignore 5 points of Fire damage each time you take fire damage.

Resist Nature's Lure (Ex) **[CR]**

You gain a +4 bonus on saving throws against the spell-like and supernatural abilities of fey. This bonus also applies to spells and effects that utilize and target plants, such as Blight, Entangle, Spike Growth, and Warp Wood.

Skilled **[CR]**

Humans gain an additional skill rank at first level and one additional rank whenever they gain a level.

Trackless Step (Ex) **[CR]**

You leave no trail in natural surroundings and cannot be tracked. You may choose to leave a trail if so desired.

Wild Empathy (Ex) **[CR]**

You can improve the attitude of an animal. This ability functions just like Diplomacy check made to improve the attitude of a person. You roll 1d20+4 to determine the Wild Empathy check result. The typical domestic animal has a starting attitude of indifferent, while wild animals are usually unfriendly. To use Wild Empathy, you and the animal must be within 30 feet of one another under normal circumstances. Generally, influencing an animal in this way takes 1 minute, but as with influencing people, it might take more or less time. You can use this ability to influence a magical beast with an Intelligence score of 1 or 2, but you take a -4 penalty on the check.

Wild Shape (Su) **[CR]**

You can change shape 1 time / day for up to 4 hours

Woodland Stride (Ex) **[CR]**

You may move through any sort of magical undergrowth (such as natural thorns, briars, overgrown areas, and similar terrains) at your normal speed and without taking damage or suffering any other impairment. Thorns, briars, and overgrown areas that have been magically manipulated to impede motion, however, still affect you.

+1 Bonus Feat (2x) **[CR]**

GM awarded PC with +1 feat.

+1 Skill Bonus (Knowledge (Nature), Knowledge (Nature), Survival) **[CR]**

GM awarded PC with +1 skill bonus.

+1 Trait (Trait ~ Wisdom in the Flesh ~ Dex (Stealth)) **[APG]**

GM awarded PC with +1 Trait.

Feats

Combat Casting **[CR]**

You are adept at spellcasting when threatened or distracted.

You get a +4 bonus on concentration checks made to cast a spell or use a spell-like ability when casting on the defensive or while grappled.

Endure Pain **[CoG]**

Through violent and torturous conditioning, you have built up a resistance to pain.

If you take nonlethal damage, you may attempt a Fortitude saving throw (DC equal to 10 + the nonlethal damage dealt) to reduce that damage by half. The Endurance feat grants a +4 bonus on this saving throw.

Flame-Tested Survivor **[LOFPG]**

You have burned in the hottest flames, and your flesh bears the proof--fire holds little fear for you anymore.

Improved Initiative **[CR]**

Your quick reflexes allow you to react quickly to danger.

You get a +4 bonus on initiative checks.

Nature Magic **[ACG]**

You are able to use simple spells by drawing on nature's raw majesty.

You gain know direction as a constant spell-like ability, and can choose another druid orison you can cast as a spell-like ability once per day. Your caster level for both of these spell-like abilities is equal to your character level.
