Traits

Indomitable Faith (Granted) **[Paizo Publishing - Ultimate Campaign, p.51]**

There is a fire in your heart that can't be quenched. You gain a +1 trait bonus on damage against foes who are threatened by only you.

Trustworthy (Granted) **[Paizo Publishing - Hell's Vengeance Player's Guide, p.12]**

You, or perhaps your family, were once worshipers of Iomedae, but something happened that made you lose your faith. Perhaps your family was accused of being dishonorable or cowardly, or maybe one of your family members was the victim of church "justice." Or perhaps you simply met someone who opened your eyes and showed you the truth--that the Inheritor's so-called honor, valor, and justice are just tin plating on a strict dogma that seeks to control people by restricting their free will. In any event, you left the church, and as a result, your family was subjected to scorn and holier-than-thou disapproval. Ever since, you've vowed to some day get revenge against the church of Iomedae--and with the current situation brewing in Cheliax, you might finally have the opportunity.Choose one: against followers of Iomedae, including many (but not all) archons and angels, you gain a +1 trait bonus on attack rolls and weapon damage rolls, or you gain a +1 trait bonus on the save DCs of your spells.

Indomitable Faith **[Paizo Publishing - Ultimate Campaign]**

You were born in a region where your faith was not popular, but you still have never abandoned it. Your constant struggle to maintain your own faith has bolstered your drive. You gain a +1 trait bonus on Will saves.

Trustworthy **[Paizo Publishing - Ultimate Campaign, p.61]**

People find it easy to put their faith in you. You gain a +1 trait bonus on Bluff checks made to fool someone. You also gain a +1 trait bonus on Diplomacy checks, and Diplomacy is always a class skill for you.

Special Qualities

AC Bonus (Ex) **[PU]**

When unarmored and unencumbered, the monk adds his Wisdom bonus (if any) to his AC and CMD. In addition, a monk gains a +1 bonus to AC and CMD at 4th level. This bonus increases by 1 for every four monk levels thereafter, up to a maximum of +5 at 20th level. These bonuses to AC apply even against touch attacks or when the monk is flat-footed. He loses these bonuses when he is immobilized or helpless, when he wears any armor, when he carries a shield, or when he carries a medium or heavy load.

Bonus Feat **[ARG]**

Humans select one extra feat at 1st level.

Bonus Feat **[PU]**

At 1st level, 2nd level, and every 4 levels thereafter, a monk can select a bonus feat. These feats must be taken from the following list: Catch Off-Guard, Combat Reflexes, Deflect Arrows, Dodge, Improved Grapple, Scorpion Style, and Throw Anything. At 6th level, the following feats are added to the list: Gorgon's Fist, Improved Bull Rush, Improved Disarm, Improved Feint, Improved Trip, and Mobility. At 10th level, the following feats are added to the list: Improved Critical, Medusa's Wrath, Snatch Arrows, and Spring Attack. A monk need not have any of the prerequisites normally required for these feats to select them.

Bonus Ki **[ARG]**

Add +1/4 to the monk's ki pool.

Combat Trick / Deflect Arrows **[PU]**

You can spend 5 stamina points to def lect an arrow while you're flat-footed. You must still be aware of the attack.

Combat Trick / Dodge **[PU]**

When you move your speed or farther, you can spend a number of stamina points up to double your Dexterity bonus. If you do, until the start of your next turn, you gain an increase to the dodge bonus granted by the Dodge feat equal to half the number of stamina points you spent.

Combat Trick / Improved Grapple **[PU]**

When you are the target of a grapple combat maneuver to initiate or maintain a grapple, you can spend a number of stamina points up to your Strength or Dexterity bonus, whichever is greater. Your CMD against that grapple attempt increases by that number.

Combat Trick / Improved Unarmed Strike **[PU]**

When you deal nonlethal damage with an unarmed strike, you can spend up to 5 stamina points to deal an amount of additional nonlethal damage equal to double the amount of stamina points you spent.

Combat Trick / Stunning Fist **[PU]**

You can spend 5 stamina points to declare that you are using Stunning Fist after you've hit with an unarmed strike.

Defensive Spin **[PU]**

The monk spins about, confounding his foe. If the attack hits, the monk gains a +4 dodge bonus to AC against any attacks made by the target of the style strike until the start of his next turn. This bonus does not stack with itself. The monk must attack with a fist to use this style strike.

Evasion (Ex) **[PU]**

At 2nd level, a monk can avoid damage from many area-effect attacks. If a monk succeeds at a Reflex saving throw against an attack that normally deals half damage on a successful save, he instead takes no damage. Evasion can be used only if a monk is wearing light armor or no armor. A helpless monk does not gain the benefit of evasion.

Fast Movement (Ex) **[PU]**

At 3rd level, a monk gains an enhancement bonus to his land speed, as shown on Table 1-2. A monk in armor or carrying a medium or heavy load loses this extra speed.

Flurry of Blows (Ex) **[PU]**

At 1st level, a monk can make a flurry of blows as a full-attack action. When making a flurry of blows, the monk can make one additional attack at his highest base attack bonus. This additional attack stacks with the bonus attacks from haste and other similar effects. When using this ability, the monk can make these attacks with any combination of his unarmed strikes and weapons that have the monk special weapon quality. He takes no penalty for using multiple weapons when making a flurry of blows, but he does not gain any additional attacks beyond what's already granted by the flurry for doing so. (He can still gain additional attacks from a high base attack bonus, from this ability, and from haste and similar effects). At 11th level, a monk can make an additional attack at his highest base attack bonus whenever he makes a flurry of blows. This stacks with the first attack from this ability and additional attacks from haste and similar effects.

Ki Pool (Su) **[PU]**

[Ki Pool = 6] At 3rd level, a monk gains a pool of ki points, supernatural energy he can use to accomplish amazing feats. The number of points in a monk's ki pool is equal to 1/2 his monk level + his Wisdom modifier. As long as he has at least 1 point in his ki pool, he can make a ki strike. At 3rd level, ki strike allows his unarmed attacks to be treated as magic weapons for the purpose of overcoming damage reduction. At 7th level, his unarmed attacks are also treated as cold iron and silver for the purpose of overcoming damage reduction. At 10th level, his unarmed attacks are also treated as lawful weapons for the purpose of overcoming damage reduction. At 16th level, his unarmed attacks are treated as adamantine weapons for the purpose of overcoming damage reduction and bypassing hardness. By spending 1 point from his ki pool as a swift action, a monk can make one additional unarmed strike at his highest attack bonus when making a flurry of blows attack. This bonus attack stacks with all bonus attacks gained from flurry of blows, as well as those from haste and similar effects. A monk gains additional powers that consume points from his ki pool as he gains levels. The ki pool is replenished each morning after 8 hours of rest or meditation; these hours do not need to be consecutive.

Ki Powers (Su) **[PU]**

At 4th level and every 2 levels thereafter, a monk can select one ki power. These powers allow the monk to perform amazing feats of mystical power and acrobatic prowess by expending points from his ki pool. Once a ki power is selected, it cannot be changed. Some ki powers require the monk to be of a specific level or higher before they can be chosen. Unless otherwise noted, a monk cannot select an individual ki power more than once.

Purity of Body (Ex) **[PU]**

At 5th level, a monk gains immunity to all diseases, including supernatural and magical diseases.

Skilled **[ARG]**

Humans gain an additional skill rank at 1st level and one additional rank whenever they gain a level.

Still Mind (Ex) **[PU]**

At 4th level, a monk gains a +2 bonus on saving throws against enchantment spells and effects.

Stunning Fist (Ex) **[PU]**

At 1st level, the monk gains Stunning Fist as a bonus feat, even if he does not meet the prerequisites. At 4th level, and every 4 levels thereafter, the monk gains the ability to apply a new condition to the target of his Stunning Fist. This condition replaces stunning the target for 1 round, and a successful saving throw still negates the effect. At 4th level, the monk can choose to make the target fatigued. At 8th level, he can make the target sickened for 1 minute. At 12th level, he can make the target staggered for 1d6+1 rounds. At 16th level, he can permanently blind or deafen the target. At 20th level, he can paralyze the target for 1d6+1 rounds. The monk must choose which condition will apply before the attack roll is made. These effects do not stack with themselves (a creature fatigued by Stunning Fist cannot become exhausted if hit by Stunning Fist again), but additional hits do increase the duration.

Style Strike (Ex) **[PU]**

At 5th level, a monk can learn one type of style strike. Whenever he makes a flurry of blows, he can designate one of his unarmed strikes as a style strike. This attack is resolved as normal, but it has an additional effect depending on the type of strike chosen. At 9th level, and every 4 levels thereafter, a monk learns an additional style strike. He must choose which style strike to apply before the attack roll is made. At 15th level, he can designate up to two of his unarmed strikes each round as a style strike, and each one can be a different type. The monk can choose from any of the following strikes.

Unarmed Strike (Ex) **[PU]**

At 1st level, a monk gains Improved Unarmed Strike as a bonus feat. A monk's attacks can be with fists, elbows, knees, and feet. This means that a monk can make unarmed strikes with his hands full. There is no such thing as an off-hand attack for a monk striking unarmed. A monk can apply his full Strength bonus on damage rolls for all his unarmed strikes. A monk's unarmed strikes deal lethal damage, although he can choose to deal nonlethal damage with no penalty on his attack roll. He can make this choice while grappling as well. A monk's unarmed strike is treated as both a manufactured weapon and a natural weapon for the purpose of spells and effects that enhance or improve either manufactured weapons or natural weapons. The damage dealt by a monk's unarmed strike is determined by the unarmed damage column on Table 1-2: Monk. The damage listed is for Medium monks. The damage for Small or Large monks is listed below.

Weapon and Armor Proficiency **[PU]**

Monks are proficient with the club, crossbow (light or heavy), dagger, handaxe, javelin, kama, nunchaku, quarterstaff, sai, short sword, shortspear, shuriken, siangham, sling, spear, and any weapon with the monk special weapon quality. Monks are not proficient with any armor or shields. When wearing armor, using a shield, or carrying a medium or heavy load, a monk loses his AC bonus, as well as his fast movement and flurry of blows abilities.

Wholeness of Body (Su) **[PU]**

A monk with this ki power can heal his own wounds as a standard action. By spending 2 points from his ki pool, he can heal an amount of damage equal to 1d8 + his monk level.

+1 Bonus Feat **[CR]**

GM awarded PC with +1 feat.

+1 Skill Bonus (Diplomacy, Diplomacy, Knowledge (Local), Knowledge (Local), Knowledge (Local)) **[CR]**

GM awarded PC with +1 skill bonus.

+1 Trait (Trait ~ Indomitable Faith, Trait ~ Trustworthy) **[APG]**

GM awarded PC with +1 Trait.

Feats

Alertness **[CR]**

You often notice things that others might miss.

You get a +2 bonus on Perception and Sense Motive skill checks. If you have 10 or more ranks in one of these skills, the bonus increases to +4 for that skill.

Combat Stamina **[PU]**

You stop at nothing to drive your attack home.

You gain a stamina pool. After you make an attack roll with a manufactured weapon, unarmed strike, or natural weapon attack with which you are proficient, but before the results are revealed, you can spend up to 5 stamina points. If you do, you gain a competence bonus on the attack roll equal to the number of stamina points you spent. If you miss with the attack, the stamina points you spent are still lost. Special: Since you have a stamina pool, you can spend your stamina points to use any combat tricks associated with combat feats you possess. [Stamina Pool = 7]

Dodge **[CR]**

Your training and reflexes allow you to react swiftly to avoid an opponent's attack.

You gain a +1 dodge bonus to your AC. A condition that makes you lose your Dex bonus to AC also makes you lose the benefits of this feat.

Extra Ki **[CR]**

You can use your ki pool more times per day than most.

Your ki pool increases by 2.

Jabbing Style **[ACG]**

A cluster of quick strikes deals more damage than a single roundhouse swing.

When you hit a target with an unarmed strike and you have hit that target with an unarmed strike previously that round, you deal an extra 1d6 points of damage to that target.

Deflect Arrows (Granted) **[CR]**

You can know arrows and other projectiles off course, preventing them from hitting you.

You must have at least one hand free (holding nothing) to use this feat. Once per round when you would normally be hit with an attack from a ranged weapon, you may deflect it so that you take no damage from it. You must be aware of the attack and not flat-footed. Attempting to deflect a ranged attack doesn't count as an action. Unusually massive ranged weapons (such as boulders or ballista bolts) and ranged attacks generated by natural attacks or spell effects can't be deflected.

Improved Grapple (Granted) **[CR]**

You are skilled at grappling opponents.

You do not provoke an attack of opportunity when performing a grapple combat maneuver. In addition, you receive a +2 bonus on checks made to grapple a foe. You also receive a +2 bonus to your Combat Maneuver Defense whenever an opponent tries to grapple you.

Improved Unarmed Strike (Granted) **[CR]**

You are skilled while fighting unarmed.

You are considered to be armed even when unarmed-you do not provoke attacks of opportunity when you attack foes while unarmed. Your unarmed strikes can deal lethal or nonlethal damage, at your choice.

Stunning Fist (Granted) **[CR]**

You know just where to strike to temporarily stun a foe. 5/day (DC 14)

You must declare that you are using this feat before you make your attack roll (thus, a failed attack roll ruins the attempt). Stunning Fist forces a foe damaged by your unarmed attack to make a Fortitude saving throw (DC 14), in addition to dealing damage normally. A defender who fails this saving throw is stunned for 1 round (until just before your next turn). A stunned character drops everything held, can't take actions, loses any Dexterity bonus to AC, and takes a -2 penalty to AC. You may attempt a stunning attack once per day for every four levels you have attained (but see Special), and no more than once per round. Constructs, oozes, plants, undead, incorporeal creatures, and creatures immune to critical hits cannot be stunned.
